Education

Arab Academy for Science, Technology & Maritime Transport   **Lattakia**, Syria
Computer Engineering. GPA 3.3/4   2016 - 2021

Experience

Al Rowad Representation of Companies   Abu Dhabi, UAE
Full Stack Engineer   Sep 2023 – Present

- Developed dynamic web applications using React.js, Next.js, and Qwik.js, focusing on enhancing user experience and optimizing performance.
- Created wireframes and designs using Figma, ensuring intuitive user interfaces and seamless user experiences.
- Managed cloud-based environments, ensuring scalability, high availability, and security of web applications through efficient infrastructure management.
- Participated in all phases of the software development lifecycle, from concept to deployment, while adopting agile methodologies for streamlined delivery.
- Prioritized application security and compliance by implementing best practices in secure coding and data protection.
- Conducted comprehensive performance audits to identify bottlenecks and optimize web application efficiency, leading to significant performance improvements.

Profound Properties   Dubai, UAE
Software Developer   Dec 2022 – Jul 2023

- Designed and implemented automation frameworks and scripts using Python, JavaScript, and related libraries, streamlining testing and deployment processes.
- Developed custom tools and solutions to automate manual tasks, reducing time and effort required, and enabling team members to concentrate on higher-value work.
- Created web scraping tools to gather and organize data efficiently from various online sources, enhancing data availability for analysis and decision-making.
- Built robust data pipelines for data collection, organization, and storage, facilitating accurate and timely data analysis.

Aratech   Dubai (Remote)
Full Stack Developer   Jul 2021 – Aug 2022

- Developed interactive user interfaces using Tailwind CSS, AlpineJS, VueJS, and ReactJS to improve user experience.
- Created wireframes and designs for websites using Figma, ensuring consistency in design language across projects.
- Engineered backends and databases with Laravel and MySQL, ensuring robust data management.
- Designed and implemented RESTful APIs to enhance data sharing and application compatibility.
- Maintained and updated legacy PHP code bases, improving reliability and security.
